

Sotoyome Resource Conservation District
presents
Recovering Coho Salmon populations in the Russian River Watershed

A Brood Stock Program Workshop
Saturday April 15th
9:00am- 12:30pm
Lake Sonoma's Milt Brandt Visitor Center in Healdsburg
and an offsite trapping/monitoring location

Please join us for a **free and informative** day of presentations and demonstrations to overview the progress of an innovative Coho Salmon recovery effort in the Russian River Watershed.

At this workshop, you will learn about the brood stock program and status. This project is California's first science-based effort of this kind, offering an exciting potential to preserve and enhance the genetic diversity, fitness, and spawning locations for Coho salmon raised between wild and laboratory environments.

Who should attend:

- Educators
- Watershed Group members
- Students
- Restoration Practitioners
- Land Managers
- Interested individuals
- Anyone living alongside a stream or river

Workshop Sponsors

Sonoma County Water Agency
California Department of Fish and Game
UC Cooperative Extension Sea Grant Program
US Army Corps of Engineers

RSVP'S required. Please Contact Rick Kaye at (707) 569-1448 x102 or rkaye@sotoyomercd.org
