## *Living on the Land Workshop Series*

Watershed Monitoring and Assessment

Habitat Enhancement

Conservation Programs

Landowner Outreach and Education

Sotoyome Resource Conservation District has been helping rural and agricultural landowners conserve their natural resources since 1945.

**December 1, 2011**

**AUSTIN CREEK WATERSHED PUBLIC MEETING**, *Austin Creek*

This meeting will provide landowners with information on projects and programs in the watershed including sediment reduction, fish habitat improvement, and water conservation. Landowners will also have an opportunity to discuss the coordination and collaboration needed between organizations, agencies, and landowners, to fund and implement these projects and programs.

For further information and registration, please contact Francesca Innocenti at [finnocenti@sotoyomercd.org](mailto:finnocenti@sotoyomercd.org) or 707.569.1448 x107

**TBD**

**RURAL ROADS IMPROVEMENT**, *Maacama and Mark West Watersheds*

Learn about our Rural Roads Improvement Program. Techniques will be discussed on how you can improve your property's rural roads including reduction of erosion and decreasing maintenance. This workshop will include a field visit to see an upgraded rural road.

For further information and registration, please contact Andy Casarez at:
